The Center for Secondary School Redesign and The EdExcellence Group invite you to sunny San Diego for

Redesigning for Student Success: Student-Centered Secondary Schools Showcase.

Join the conversation that began over twenty years ago with Breaking Ranks.

For nearly a decade, CSSR has provided a showcase for secondary school leaders to enhance their understanding and practice of student-centered learning. Since NASSP has no winter/spring conference this year, this conference provides the same opportunities showcases have provided in the past. Don't miss your chance!

Better yet, extend your stay through Presidents' Day Weekend, and enjoy all that beautiful San Diego has to offer.

LEARN, DISCUSS, AND NETWORK WITH YOUR PEERS!

This student-centered professional development showcase brings together 20 of the nation's most innovative and successful secondary schools to share their high school redesign programs and strategies. The Showcase provides administrators, school leadership teams, practitioners, and students an opportunity to deeply engage with transformational school leaders and discuss critical, relevant issues regarding the secondary school redesign process.

Redesigning for Student Success will provide abundant networking opportunities for like-minded, innovative educators from across the country. Participants will have a chance to visit sites, listen to presentations, hear from students, and join roundtable discussions with top education reformers. In addition to cutting edge ideas and proven strategies, participants will bring home a network of secondary school educators who can support one another as they implement redesign programs in their schools.
